The following MR. CLAY'S ANSWER.

Lexington, 24th July, 1826.
General Emery : I have received, with lively emotions of grafitude and thankfulness, your affectionate note of the 22d instant, expressing the friendly congratulations of my fellow-citizens of Clarke and chester, in consequence of my recent return to Kentucky, and inviting me to a public dinner, Such an honorable testimony of esteem and confi-dence, emanating from any portion of the public would be highly gratifying, but proceeding as it floes from a respectable community, with many of whose members I have been intimately associated, in public and private life, for more than a quarter of a century, it has a value which no language can adequately express. I regret that the circumstances of my situation will not allow me to accept the honor intended me. I came home to see my rela-tions and friends, but to see them individually and without parade, to transact some private business and to recover from the fatigues of a laborious of-bee. Occurrences since I left Washington oblige me to abridge the time which I had hoped to abide Kentucky, and I must dedicate the small remnant to my private affeirs. I trust that the people nant to my private affairs. I trust that the people of Clarke and Winchester will be persuaded, that in thus yielding to the necessity which controls my movement, I shall not be less mindful of the new should look out for himself in the "partition of

The administration of the general government has experienced, in some of the measures they have proposed, a degree of opposition which could not have been anticipated. HALIFAX, N. S. July 28th, 1829. By the last packet an act of Parliament has been eceived, which introduces a most important alteraion in the colonial Trade, and which will bear particularly on your commercial interests. By 36th clause, flour is now admissible from the warehouses of these Colonies into our W. India possessions on the payment of 1s. stg. per barrel - if imported direct from the States, in a British or Amercan vessel, it is liable to the full duty imposed by mproved prices. We cannot dismiss the other topic in which the whole Union is interested, without expressing our apprehensions that it is destined to agitate the public mind even more furiously than at the last election.

We can scarcely mistake the signs of the times. We think we can discover in the political horizon, the dark marks of the coming storm. Unless the indications shall prove utterly delusive, this battle is sured by the British government, that it would to be conducted with an unusual asperity—In not concern itself with his proceedings, if he did despite of all the efforts of all the moderate men, it is fated to partake too much of the rancour and violence of personal feelings. Although constitutionally elected President, is evident, that Mr. Adams was not the choice of the people of the United States. In consequence of which, the last session of Congress exhibited a melancholy scene of political strife and personal hostility. That Mr. Adams was made Presiden through the intrigue, management and influence of Mr. Clay, is a proposition which appears no longer to admit of doubt, or disputation. As a necessary consequence, two distinct parties have arisen in the United States. One determined, by every laudable and constitutional exertion, to over throw, what has been technically termed, the " pu ritan and black leg coalition." The other, enjoy-ing the fruits of political legerdemain, and fatten-ing on the "public crib," will doubtless, in order remain in power, use every effort, which inge-

nuity, cunning and intrigue, can devise. Judging from the violent anti-administration oasts, which have been offered on the last 4th July, in almost every section of the Union, we are rresistibly led to the conclusion, that a large majority of the people of the United States, have no confidence in either the moral, or political integrity of the present administration.
